Energy Procurement Framework for Schools

Supporting Schools with Reliable, Cost Effective Energy Solutions

Framework Overview

Transparent Utility Consultants provides a fully authorized energy procurement framework for schools, ensuring seamless access to cost-effective, reliable energy services. With approval from Crown Commercial Services, our framework enables schools to confidently manage energy needs, securing value through competitive rates and expert market timing.

Our framework includes:
- Electricity Procurement
- Gas Procurement
- Dedicated Energy Consultancy Services

This framework is specifically designed for the education sector, accommodating the unique needs of schools and educational facilities.

Key Benefits of Our Framework

- Market Timing and Expert Procurement: We monitor market trends and time purchases strategically, ensuring schools secure favourable rates and avoid market fluctuations.

- Pricing: We secure fixed rates for the duration of the contract, providing budget certainty. By tendering with multiple suppliers, we ensure you receive the best possible rates, reducing budget pressures.

- Dedicated Account Manager: Receive personalized support with a single point of contact, ensuring efficient, tailored energy management for your needs.

- Independent, Transparent Advice: As a fully independent consultant, we prioritize your best interests, providing unbiased recommendations that align with your needs.

- Sustainability Support: Our services help schools meet sustainability goals and advance towards Net Zero, including renewable energy procurement and carbon reduction strategies.

- Risk Management: To ensure budget certainty, we secure fixed-rate energy contracts at optimal market lows, protecting against price volatility.

Sustainability and Net Zero Support

Our framework is designed to help schools meet sustainability targets with confidence. We provide access to renewable energy options, sustainable energy solutions, and actionable plans for carbon reduction.
Framework Eligibility

This framework is available to all educational institutions across the UK, including:

- Primary and secondary schools
- Academies and multi-academy trusts
- Colleges and universities
- Independent schools

How to Engage with Transparent Utility Consultants

For more information on joining our framework and unlocking reliable, cost-effective energy solutions, schools can contact us directly. We offer free, non-obligatory consultations to discuss your specific needs and guide you through each step.

Energy Procurement Framework for Schools

Supporting Schools with Reliable, Cost-Effective Energy Solutions

Scope of Services

Electricity Procurement

We secure competitive, long-term electricity contracts from an extensive supplier network. Using advanced market insights, we time purchases to minimize costs and optimise rates, delivering value and stability.

Gas Procurement

Transparent Utility Consultants extends expert gas procurement services to educational institutions. We identify and negotiate cost-effective, reliable gas supply contracts, helping schools reduce energy costs while maintaining a dependable supply.

Comprehensive Energy Consultancy

Our free non-obligatory consulting services cover all aspects of energy management, including:

- Energy Consumption Audits and Spend Analysis
- Sustainability and Net Zero Planning
- New connection services
- Billing or service query management

We work closely with each school to customize a strategic energy plan that aligns with operational and budgetary goals.
